Photo: More than half the students at Elizabeth Academy at Philippines Missionary Fellowship are the first generation in their families to attend school. Due to financial pressures, in order to support their family, children would start working with their parents at a young age. Today, smiles at Elizabeth Academy are a true testimony of the transformation this community is currently undergoing. Parents who would never have been able to afford to send their children to school have their children's educational needs met, for free, at Elizabeth Academy. This is all thanks to the generosity of WorldShare's supporters. THANK YOU!

"No one from our family went to school. In my case, I was struggling to send my children to school because of shortage of money. Today my two children are all studying and I see a different future for us."
